

POWERHOUSE STUDIOS

About Powerhouse Studios

Powerhouse Studios is a creative and production company built to help brands become more visible, more memorable and more impactful.

We work with businesses, brands, creators and organisations to develop content, manage digital presence, produce videos, execute events and create experiences that connect with people.

From an idea on paper to the final piece of content, from a social media campaign to a large-scale event, Powerhouse brings together **creative thinking, production expertise and execution** under one roof.

Our approach is simple:

We create. We connect. We build brands.

We believe that great content is not just about looking good. It should have a purpose. It should communicate something clearly, create attention, build trust and ultimately help a brand grow.

Whether it is a brand film, a social media reel, a product shoot, an event, a campaign or a complete digital presence, we focus on creating work that represents the brand and speaks to its audience.

Who We Are

Powerhouse Studios is a growing creative studio based in **Mangaluru, Karnataka**, working with brands and businesses across different industries.

We bring together people from different creative disciplines including:

- Creative strategy
- Content creation
- Social media
- Video production
- Video editing

- Photography
- Event management
- Event production
- Event coverage
- Studio production
- Digital campaigns
- Brand communication

Instead of treating these as completely separate services, we bring them together to create a more connected brand experience.

A client may come to us looking for social media management and eventually need a campaign, video production, event coverage or a complete content strategy.

Our role is to understand the bigger picture and build the right creative solution around it.

What We Believe

Visibility creates opportunity.

A good business can exist without being visible, but it becomes much harder to grow when people don't know it exists.

We believe that consistent and meaningful communication helps brands become visible.

Visibility builds trust.

When people repeatedly see a brand, understand what it stands for and experience its communication consistently, familiarity begins to develop.

Trust supports business growth.

Our work is designed to help brands communicate better, stay relevant and build stronger relationships with their audience.

Visibility → Trust → Growth

That is the thinking behind Powerhouse.

Our Philosophy

We don't believe in creating content just for the sake of creating content.

Every piece of communication should have a reason.

It could be to:

- Introduce a brand
- Explain a product
- Educate an audience
- Build credibility
- Create awareness
- Generate conversations
- Showcase an experience
- Strengthen a brand's identity
- Document an important moment
- Entertain an audience
- Support a campaign
- Create long-term brand value

We combine creativity with purpose to make content that works for the brand.

Our Services

1. Social Media Management

We help brands build and maintain a consistent presence across social media platforms.

Our social media work can include:

- Social media strategy
- Content planning
- Creative concepts
- Reels
- Short-form videos
- Static creatives
- Carousels
- Stories
- Content writing

- Captions
- Publishing
- Page management
- Community management
- Content optimisation
- Monthly performance tracking
- Campaign-based content

We don't simply fill a content calendar.

We work to understand the brand, its audience, its communication style and its objectives before developing content.

Our goal is to create a social presence that feels consistent, recognisable and relevant.

2. Video Production

Video is one of the most powerful ways for a brand to communicate.

Powerhouse handles video projects from concept to final delivery.

Our production capabilities include:

- Concept development
- Creative direction
- Script development
- Pre-production planning
- Location shoots
- Studio shoots
- Interviews
- Talking-head videos
- Product videos
- Brand films
- Corporate videos
- Promotional videos
- Social media videos
- Event films
- Reels
- Campaign videos
- YouTube content
- Podcast video production

We focus on the complete production process so clients don't have to coordinate multiple teams for every stage of a project.

3. Video Editing & Post-Production

A great shoot is only the beginning.

Our post-production team transforms raw footage into polished content designed for its intended platform and audience.

Our editing services include:

- Short-form video editing
- Instagram Reels
- YouTube videos
- Podcast editing
- Promotional videos
- Brand films
- Event highlights
- Talking-head videos
- Product videos
- Corporate videos
- Trailer videos
- Social media cuts
- Motion graphics
- Subtitles and captions
- Colour correction
- Sound design
- Music integration
- Platform-specific versions

We can work with footage produced by Powerhouse as well as client-provided footage, depending on the project.

4. Photography

Visuals play an important role in how people perceive a brand.

Powerhouse provides photography solutions for businesses, campaigns, products, people and events.

Our photography services include:

- Brand photography
- Product photography
- Corporate photography
- Event photography
- Lifestyle photography
- Portraits
- Social media photography
- Campaign photography
- Behind-the-scenes photography

We focus not just on capturing images, but on creating a visual library that brands can use across their marketing and communication.

5. Event Management & Production

Events are experiences.

From planning to execution, Powerhouse provides end-to-end event solutions for brands, businesses and individuals.

Our event capabilities include:

- Event planning
- Event management
- Event production
- Venue coordination
- Stage setup
- Event décor
- Sound and lighting
- DJ
- Emcee coordination
- Artist coordination
- Guest management
- Technical production
- Event branding
- Photography
- Videography

- Event coverage
- Highlight films
- On-ground coordination

From intimate celebrations to corporate events and large-scale productions, our team works to ensure that every element comes together smoothly.

Powerhouse is a one-stop solution for complete event management.

6. Event Coverage

An event lasts for a few hours.

The content created from that event can continue working for much longer.

Our event coverage team captures the moments, people, energy and atmosphere of an event and turns them into content that can be used after the event.

Our coverage includes:

- Event photography
- Event videography
- Reels
- Highlight films
- Same-day / fast-turnaround content where applicable
- Speaker coverage
- Guest interactions
- Behind-the-scenes content
- Brand activations
- Venue and décor coverage
- Post-event content

The objective is not simply to document what happened, but to capture the experience.

7. Studio Rentals

Powerhouse Studios also provides a creative space for content production.

Our studio environment can support:

- Video shoots
- Photography
- Product shoots
- Interviews
- Talking-head content
- Podcasts
- Brand shoots
- Social media content
- Creator shoots
- Campaign production

The studio can be used by brands, creators, agencies and individuals who need a controlled environment for professional content production.

8. Brand Content & Campaigns

Brands often need more than individual pieces of content.

They need campaigns that have a consistent idea, visual identity and communication direction.

Powerhouse can support campaigns through:

- Campaign concepts
- Creative direction
- Content strategy
- Video production
- Photography
- Social media content
- Digital creatives
- Influencer/creator content
- Event integration
- Campaign execution
- Post-campaign content

We bring multiple creative requirements together so that the campaign feels like one connected brand story.

Our Approach

Every project begins with understanding.

Before creating anything, we want to understand:

What is the brand?

Who is the audience?

What does the brand want to communicate?

What is the objective?

Where will the content be used?

What does success look like for the project?

From there, our process generally moves through four stages.

Understand

We understand the brand, requirement, audience and objective.

Create

We develop ideas, concepts, scripts, visuals and creative directions.

Produce

We bring the idea to life through production, shoots, events and content creation.

Deliver

We edit, refine and prepare the final content for the required platforms and purposes.

Why Powerhouse Studios?

One Creative Partner

Instead of managing multiple vendors for different requirements, brands can work with one team across content, production and events.

Creative + Execution

We don't stop at ideas.

We take ideas into production and deliver the final output.

Content That Has Purpose

We focus on why the content is being created, not just how it looks.

Flexible Production

Every brand has different requirements. We build our approach around the project instead of forcing every client into the same production model.

End-to-End Capability

From strategy and concepts to production, editing and final delivery, we can manage the complete creative process.

Local Understanding, Professional Production

Based in Mangaluru, we understand the local market while bringing a professional production mindset to every project.

Our Work

At Powerhouse, every project is an opportunity to create something meaningful.

We work across:

- Retail
- Restaurants
- Hospitality
- Healthcare
- Education
- Real estate
- Fitness
- Lifestyle

- Fashion
- Automotive
- Corporate brands
- Events
- Personal brands
- Creators
- Startups
- Local businesses

Our portfolio reflects different industries, different audiences and different creative challenges.

Different brands. Different stories. One Powerhouse approach.

Working With Powerhouse

Whether you already have a detailed brief or only have an idea, you can start a conversation with us.

You may approach us for:

A single project

A video, shoot, event, campaign or editing requirement.

Ongoing content

Regular social media and content production for your brand.

A campaign

A complete creative campaign requiring multiple formats and deliverables.

An event

Planning, production, management and coverage.

A complete creative partner

A long-term relationship covering multiple creative and production requirements.

We adapt our involvement according to what your brand needs.

For Businesses & Brands

Your business already has a story.

Our job is to help you tell it better.

Whether you are launching a new brand, expanding an existing business, introducing a product, running a campaign or simply looking to improve your digital presence, Powerhouse can help you build the content and communication around it.

For Creators

Creators need more than a camera.

They need a creative environment, production support and content that keeps up with their ideas.

Powerhouse can support creators with:

- Studio access
- Video production
- Podcast production
- Video editing
- Reels
- YouTube content
- Photography
- Creative assistance
- Content production

We provide the production support so creators can focus on creating.

For Events

An event should be experienced, not just organised.

Powerhouse brings together event management, production, creative execution and event coverage to create experiences that people remember.

From the first planning conversation to the final highlight video, our team can be involved throughout the journey.

Our Team

Powerhouse is built around a team of creative thinkers, producers, editors, strategists and execution specialists.

Our team combines different skills because modern brand building requires more than one discipline.

We believe in collaboration.

A strong idea can come from anywhere, and the best work happens when creative, production and strategy work together.

Our Founders

Sharan Chilimbi

Co-Founder | Creative & Content

Sharan is a Tulu creator, influencer, host, actor, dancer and YouTuber known for building strong connections with audiences through entertainment and digital content.

His experience as a creator and performer brings a strong understanding of audience behaviour, storytelling and content creation to Powerhouse Studios.

Through his creative work and entrepreneurial journey, Sharan focuses on developing content that feels authentic, engaging and culturally relevant.

Shravan Rajani

Co-Founder | Digital & Creative Strategy

Shravan brings together digital thinking, creative strategy and entrepreneurial experience.

Known as **Shravan Bro**, he is a fitness creator and entrepreneur with an understanding of digital audiences, personal branding and content-led growth.

At Powerhouse, he focuses on strategy, digital direction and building creative solutions that connect business objectives with audience communication.

The Powerhouse Difference

We are not here to simply produce another reel.

We are here to understand what the brand needs and build the right creative solution around it.

Sometimes that means one video.

Sometimes it means an entire campaign.

Sometimes it means managing a brand's social media every month.

Sometimes it means producing an event from the ground up.

And sometimes it means simply helping a business figure out what it should communicate next.

The requirement may change.

The approach remains the same — understand, create, execute and build.

Our Vision

To build Powerhouse Studios into a leading creative and production company from Mangaluru, creating work that reaches audiences beyond the region.

We want to build a creative ecosystem where brands, businesses, creators and communities can come together to create meaningful work.

Our Mission

To help brands communicate better through creativity, content and experiences.

We aim to combine:

Strategy + Creativity + Production + Execution

to create work that helps businesses become more visible, build trust and grow.

Our Brand Promise

We create.

We connect.

We build brands.

We create content that captures attention.

We connect brands with people.

We build communication that creates long-term value.

Frequently Asked Questions

What does Powerhouse Studios do?

Powerhouse Studios is a creative and production company offering social media management, video production, video editing, photography, event management, event production, event coverage, studio rentals and campaign content.

Do you work only with large brands?

Do you provide social media management?

Yes. Our social media services can include strategy, content planning, reels, posters, stories, publishing, community management and performance tracking.

Do you provide event management?

Yes. We provide end-to-end event management and production solutions, including planning, décor, sound, lighting, entertainment coordination, on-ground execution and event coverage.

Can you edit videos using footage provided by the client?

Yes. We can work with client-provided footage for video editing projects, depending on the requirement.

Do you provide studio space?

Yes. Powerhouse Studios offers studio facilities for content production, photography, video shoots, interviews, podcasts and creator content.

Do you work outside Mangaluru?

Yes. Projects can be undertaken outside Mangaluru depending on the scope, production requirements and location.

A Note From Powerhouse

Every brand has something worth saying.

Sometimes it is a story.

Sometimes it is a product.

Sometimes it is a person.

Sometimes it is an experience.

Our job is to find that story, shape it and bring it to life.

We believe good creative work should not simply fill a feed or produce a moment of attention. It should help people understand a brand, remember it and connect with it.

That's what Powerhouse is built to do.

We create. We connect. We build brands.
